Final Action

Response to Amendment

1. Applicant's Remarks/Arguments filed on 11/03/2008 have been considered. Claims 1-12 have been withdrawn by applicant. Claims 13-21 are currently pending.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claims 13-21 are rejected under 35 U.S.C. 101 as not falling within one of the four statutory categories of invention. While the claims recite a series of steps or acts to be performed, a statutory "process" under 35 U.S.C. 101 must (1) be tied to particular machine, or (2) transform underlying subject matter (such as an article or material) to a different state or thing. See page 10 of In Re Bilski 88 USPQ2d 1385. The instant claims are neither positively tied to a particular machine that accomplishes the claimed method steps nor transform underlying subject matter, and therefore do not qualify as a statutory process. The method steps of enhancing resource management for routing events, as claimed in independent claims 13 and 18, are broad enough that the claim could be completely performed mentally, verbally or without a machine nor is any transformation apparent.

Response to Arguments

3. Applicant's Remarks/Arguments with respect to claims 13-21 have been considered but are moot in view of the new ground(s) of rejection.
